For Kentucky.—Rain, east winds.
 THE Waverly (O) Courier-Watchman propounds this very pertinent question: "If McKinley's administration made \$1 wheat, who is responsible for 65c. wheat now?"

THE Fourth Kentucky regiment has just got settled down at Camp Shipp, Aniston, and now parties are asking the War Department to send the boys up to Ft. Thomas. This switching the soldiers about over the country is a fine thing—for the railroads.

DEMOCRATS made almost a clean sweep at the last election in Arkansas. The newly elected Legislature consists of thirty-one Democrats in the Senate, that being the total membership, and ninety-eight Democrats and two Republicans in the House.

THE National Intelligence remarks that "if we had a Democratic President with this war scandal on his hands, every Republican howler in the country would cry out for vengeance, impeachment, criminal proceedings and all the rest of it." How true it is, that it makes a vast deal of difference whose ox is gored.

It has been openly charged in the press that Dr. Huydekoper, the dog doctor, was given the responsible position in the surgical and medical department of the army because of his success in treating Mrs. McKinley's pet pug; and what is still worse it is charged the position was secured for him by the President. As yet there has been no denial of this grave charge.

THE Republican vote in Vermont, at the recent election, was the smallest in thirty years. It was about 12,000 smaller than Governor Woodbury's vote in 1894 and about 20,000 smaller than the vote in 1896. The Democrats reaffirmed the Chicago platform and polled nearly 2,000 votes more than they did in 1896, when the Democratic vote reached its low-water mark.

GENERAL MILES has evidently been reading that interview with Secretary Alger, referred to elsewhere, wherein the latter says the soldiers were responsible for the sickness and suffering in the camps and hospitals. And it's not hard to tell what the General thinks of the Secretary after you read this: "Those who say that these men sickened and died because they wished to; those who blame the soldiers and officers of our army for the disease and death that devastated the camps and thinned the ranks of our army; those who assert that our soldiers suffered through their own fault, insult a quarter of a million of the bravest men that ever carried arms beneath the sun. These men did not suffer and die because they liked it, and whoever says they did, insults our army and the men who officered it. It is an affront to reason. I have nothing to say of the blame for the death of those brave men."

That's one of the best shots General Miles ever made.

BAPTIST CHURCH.—Sunday school, 9:30 a. m.; preaching, 10:45 a. m. Text, "Jesus Wept." Young people's meeting 6 o'clock p. m. No evening service. Public welcome to all of the services.

RED COSTELLO went home last night and created no end of excitement on Casto street. Red was thirsty, and when his sister refused to let him have 50 cents to buy some liquor he overturned the table, smashing a lamp and other articles and frightening his sister and cousin out of the house. In their flight one of them fell, and the other carrying a child stumbled over her and went down also. Red fled, too, but the police soon jailed him. It was reported that he struck one of the women with a club and the other with an axe, but this is not true.

THE Pastor's Union having terminated its vacation will hold its first fall meeting on Monday, October 3rd, at 3 p. m. in the study of Dr. J. S. Hays.

HE'S ALL RIGHT.

Republicans Can't Find Anything Against Hon. Mordecai Williams.

(Cattletsburg Democrat.)
 Hon. Mordecai Williams stands before the people of the Ninth Congressional district unimpeached even by his political opponents.

His past record has been so pure that there is nothing they can conjure up against him. He stands the peer of any man in every respect and will make a worthy representative of our people.

That he will make an active and intelligent and hard working member of Congress no one denies. He is the candidate for our people to support if they wish something done by the National government for our section.

How To Look Good.

Good looks are really more than skin deep, depending entirely on a healthy condition of all the vital organs. If the liver be inactive, you have a bilious look; if your stomach be disordered, you have a dyspeptic look; if your kidneys be affected, you have a pinched look. Secure good health, and you will surely have good looks. "Electric Bitters" is a good Alternative and Tonic. Acts directly on the stomach, liver and kidneys. A SUBJECT of great importance to tobacco growers, as well as to the warehousemen, has been discussed on the "breaks" in Louisville during the week. It is the announcement that the American Tobacco Company intended to follow in the footsteps of the Liggett & Myers Company by buying their tobacco this year direct from the farmers in the country instead of at the auction sales at Louisville and Cincinnati.
